Aurora Cooperative

The Aurora Cooperative is a world-class, multipurpose agricultural cooperative that was established in 1908. They provide service and expertise in grain, agronomy, animal nutrition, and energy.

Aurora Cooperative's main office is located in Aurora, Nebraska, with 65 other locations nationwide. They have over 550 employees and annual sales of approximately \$1.1 billion.

Aurora Cooperative is made of four different divisions: Grain, Agronomy, Energy, and Animal Nutrition. Your grain adds up, and their ability to manage and market that grain makes sure of it. Your business is growing, and theirs is making sure it keeps on doing exactly that. Their energy division is your source for the products that fuel your success. They're on the ground — working as your partner in a sound animal nutrition program.
