## Bellevue University

Founded in 1966, Bellevue University is a private, non-profit, regionally accredited institution with a beautiful 46-acre main campus in Bellevue, Nebraska. Bellevue University has graduated over 48,000 students (2014) and serves nearly 10,000 students annually (2014) at a total of 15 campus locations in four states -- and everywhere online.

Bellevue University effectively engages students in earning awards and degrees that prepare them to thrive in a connected, competitive world. They provide students with a powerful foundation for personal value creation, instilling the confidence they need to take control of their lives and to be responsible citizens of the global community.

Electronic Contracting Company worked together with Bellevue University to install the following systems in the Criss Auditorium and the Symposium Room in the John B. Administrative Services Building.
