## Think Whole Person Healthcare

Think Whole Person Healthcare is a physician-led practice which is bringing a whole new standard of healthcare to the area.

Think is a six-story building housing 24 primary-care doctors, a pharmacy, classrooms, therapy gym, coffee bar, piano, and an auditorium.

The whole person healthcare team includes pharmacists, physical therapists, dietitians, podiatrists, occupational therapists, dentists, optometrists, audiologists, psychologists, counselors, specialist nurses, guided care nurses, health coaches, and case managers. Think is a community of care, made up of healthcare professionals selected by you, for you, that promises to be always there for you. They believe that what happens in your body and mind affects your energy, your relationships, and your quality of life.
