## Walz Human Performance Complex

The Walz Performance Complex stands among the finest facilities of its kind for any university of Concordia's size. The facility has undergone the first and second of three phases of construction.

The Walz features already completed: state-of-the-art performance gymnasium with upper and lower deck seating, improved weight room and workout facilities, upgraded sports medicine facilities, academic classroom space, upgraded locker facilities, human performance laboratory facilities and computer lab, team meeting rooms, athletic offices, conference room, lobby and commons area, and an indoor 200 meter track with multipurpose infield (fieldhouse).

Renovations are currently underway for the P.E. Building, including improvements for intramurals space (old gym), the addition of a wrestling room, overhauls of locker rooms, classroom/team areas, weight room, equipment space, and offices.
