REAL-TIME INMATE LOCATION AND VITAL MONITORING
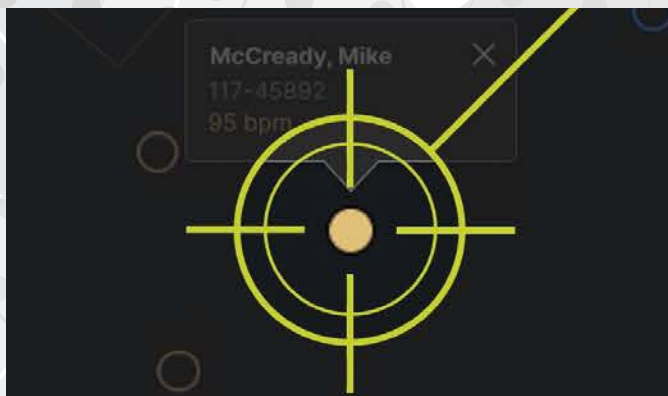

SAFETY AND SECURITY BEYOND THE CAMERA

# THE BEST WAY TO STAY CONNECTED TO YOUR FACILITY AND INMATES

The OMNI Real Time location System (OMNI RTLS) is a cutting-edge hardware and software solution designed specifically to track and report the locations, vitals, interactions, and biometrics of all inmates anywhere in your correctional facility, in real time. It's comprised of 4 main components that work together to enhance the safety, security, and accountability in your facility. The OMNI Software Platform is easily deployed in any correctional environment on any computer or tablet you already own. The inmate bracelets are compact, tamper-proof, and waterproof with industry leading accuracy to continuously report vitals and precise locations. Staff cards and asset tags are available and equipped with their own unique emergency response buttons that alerts you of their exact location when pressed. The OMNI System utilizes Bluetooth base stations installed throughout your facility that send immediate alerts in the case of a malfunction or failure.
