

IMPERIUM[®]
SECURITY CONTROL

INTELLIGENT TOUCH SCREEN CONTROL

ECC's IMPERIUM® gives you intelligent security control, right at your fingertips. It's custom designed to your facility's exact needs and integrates directly into your workflow. You can control your entire facility or campus right from a touch screen. It shows your entire floor plan, with the ability to easily change between floors and buildings. Function buttons and status indicators are populated on your floor plans that give the control and monitoring abilities that you need. Integrate with your security cameras and intercom system to display the associated camera when an intercom button is pressed on the touch screen. Switch between compact and detailed graphic screens. Lock down your facility or campus at the touch of a button. Automatically send law enforcement real-time, detailed security alerts. Bring core security systems into a single interface from gun detection, vape detection, weapons detection, and more for a powerful security control system. Maximize your safety and control your facility how you want.

CONTROL. AUTOMATE. INTEGRATE. SECURITY CONTROL AT THE TOUCH OF A FINGER

SECURITY – SIMPLIFIED

The Imperium Security Control System makes security easy:

- Touch screens that show vital building activity
- Retrofit without costly field device changes
- Real-time emergency notifications and communication
- Automated active shooter security response
- One-button emergency lockdown
- Seamless visitor management and access control
- Door status indicators show real-time door position activity
- Door lock buttons control lock and unlock functions
- Automated reporting for easy performance checks
- Streamlined communication and security systems

INTEGRATE INTO A SINGLE, POWERFUL CONTROL SYSTEM

SIMPLIFY YOUR SECURITY

ABOUT ECC

ECC has built a foundation on bringing dynamic solutions to organizations for over 65 years. We connect businesses to better experiences using Audio/Visual/Lighting, Communication, Electronic Security, Fire Safety, and Healthcare Technology Solutions. We're systems integrators with a mission to create impactful experiences through technology.

ECC's IMPERIUM® Security Control System provides an integrated security control solution in a single touch screen interface and supports multiple, simultaneous control stations. It's designed to automate and simplify security operations by integrating core communication and security systems.
