

4:1 Floor Cleaning Service - Autonomous Mobile Robotics (AMR) for Smart Hospitals and all Healthcare

ClearFocus Robotics, a healthcare services and robotics solutions provider presents Scrubby™, an *award winning*, AI Driven, 4:1 floor maintenance AMR dedicated to enhancing workflow efficiency and workforce effectiveness through fully autonomous commercial-grade floor cleaning robotics technology.

Proud sponsor of:

"We integrated Scrubby, the autonomous mobile robotics floor cleaner into the daily maintenance routine at the Riverview Innovation Center and within days, we experienced a daily 6-hour reduction in manpower demand. The efficiency and consistency of this AMR allows maintenance departments to redeploy staff to focus on more critical tasks, reduce overtime hours and overall maintenance costs. This is an instant ROI solution for all commercial environments".
Derek Foster, Co-Owner, Daigle Cleaning Systems, Inc.

CLEARFOCUS ROBOTICS

AI-powered Autonomous Cleaning Robotics

Scrubby – COMMERCIAL integrates advanced AI perception and control systems to deliver a fully automated, closed-loop cleaning process. Autonomously manage an entire cleaning cycle—from dirt and debris detection adaptive cleaning intensity to real-time cleanliness assessment and self-monitoring of cleaning components. Automated water refilling and drainage, self-charging capabilities and multi-floor operation, housekeeping teams can now streamline “Smart Hospital” cleaning workflow significantly reducing staff intervention and ensuring consistent cleaning outcomes, guest rooms to large event centers.

reddot winner 2025

Autonomous Floor Care in Smart Hospitals and all Healthcare w/ 24hr. Operation

Hospitals, Adult care, Urgent care and all Healthcare Environments

Versatile Cleaning -Four-in-one cleaning

Scrubbing, Sweeping, Vacuuming, Dust Mopping

Auto Power Charging & Water Refill and Discharge

No manual intervention worry-free, labor-saving

Mobile Water Station

Intelligent monitoring, timely water change alerts.

Supports Wide Range of Floor Types

Hard floors And Soft Carpets

Dynamic Space Perception

Ideal for ever changing hallway environments

Measurable Cleaning

Cleaning results visible on dashboard with real-time reporting.

Elevator / Security Door Access

Ready to deploy API and interface to most popular elevator companies.

CLEARFOCUS ROBOTICS Real Work Autonomous Robotics, “Smart Hospital Series” for all Healthcare
