

ECC

# The Smarter Way TO CLEAN

## Introducing Scrubby™— *Clean Floors, On Autopilot*

Controlled environments demand smarter solutions. That's why ECC is proud to partner with ClearFocus Robotics to offer Scrubby™, a powerful 4-in-1 autonomous robot that simplifies floor care, cuts labor costs, and boosts operational efficiency.

Scrubby™ redefines efficiency by cleaning 7,530-10,760 square feet per hour. With minimal oversight and powerful automation, Scrubby™ frees up your staff to focus on more meaningful work. Key benefits:

- **4-in-1 Performance:** All-in-one solution replaces multiple machines and manual labor for sweeping, scrubbing, mopping and vacuuming
- **Made for Dynamic Environments:** Navigates tile, carpet, tight corners and high-traffic zones with ease with dynamic space perception
- **Labor-Saving ROI:** Cuts staffing costs by 50% or more and pays for itself in under a year
- **Fully Autonomous:** Auto charges, timely water refill alerts and dashboard with real-time reporting
- **Always Ready:** Operates 24/7 to keep your floors consistently clean
